

Notice to all property owners who have undeveloped lots.

After the Hurricane storms breaking and uprooting trees on all the lots and the undergrowth of dry vegetation, we have a very serious threat of a devastating fire affecting all of the subdivision.

After a inspection of the trail's subdivision along with the forestry department, they determined that until all of the undeveloped properties remove their hazardous materials, (dead trees and undergrowth of rotting vegetation) we do have a very dangerous situation here in the trails. Therefore, we are asking all lot owners to remove any woodpiles or dead trees from their lots within 30 days or please let us know how we can help assist all members in this cleanup campaign. We can recommend a couple of contractors that we have used in the past but we strongly suggest that you select your own tree and brush removal agents.

Colby Gamble at [386-678-1223](tel:386-678-1223). Or
Deep Roots, Mike Baan/ Will Johnson at
[386-776-1047](tel:386-776-1047)

We appreciate everyone's cooperation.
